

# HMIs and industrial PCs

Product overview

# Selection guide for HMIs

Whether in the central control room, in the production area or directly on the machine – efficient automation requires the right visualization. And visualization requirements determine which HMI device is the right one to choose.

Follow these three steps to find the optimum solution for your application.

1

## Select visualization by means of

- User interface
- Functionality
- System coupling

2

## Assess the scope of functions needed

- Basic
- Standard
- High-end

3

## Select devices

- HMIs for WebVisit and microbrowsers
- HMIs for HTML5
- HMIs for Visu+
- Panel PC

## Step 1: Visualization as a basis for selecting an HMI

The requirements for user interface, functionality, and system coupling determine which visualization system is appropriate and which particular HMI type should be selected.

- The user interface aspect refers to the graphical options for designing an interface

- The functionality aspect indicates the software's operation and monitoring functions
- The system coupling aspect refers to communication and integration in control systems

Software	PC Worx	WebVisit	Spider Control™	Visu+ Express	Visu+
<b>User interface</b>					
<b>Display of operating data</b>					
• Alphanumeric	Yes	Yes	Yes	Yes	Yes
• Simple graphic display	–	Yes	Yes	Yes	Yes
• Graphic-intensive display	–	–	–	Yes	Yes
• Dundas Gauges	–	–	–	–	Yes
Color spectrum	2 bpp (4 colors)	8 bpp (256 colors)	8 bpp (256 colors)	16 bpp (65K colors)	Unlimited (depending on hardware)
<b>Supported image formats</b>

Time switch	–	–	–	Yes	Yes
Access via standard browser	–	Yes (PLC-dependent)	Yes (PLC-dependent)	Max. 2	Max. 100 (depends on the license)
<b>System coupling</b>					
Connection to Phoenix Contact PLC	Yes (http)	Yes (http)	Yes (http)	Yes (OPC, Modbus)	Yes (OPC, Modbus)
Connection to third-party systems	–	–	Yes (http)	Yes (all established manufacturers)	Yes (all established manufacturers)
<b>Compatible devices</b>					
HMI (including a suitable runtime)	TD1030T	HMI for WebVisit and microbrowsers	HMI for WebVisit and microbrowsers	HMI for Visu+	HMI for Visu+
Industrial PC	–	Panel PC with browser	Panel PC with browser	–	Panel PC (plus runtime)

## Step 2: Assess the resource requirements based on the scope of the application

The user-friendliness of a device depends on the application programming. By contrast, the response and display refresh time (operating efficiency) is primarily based on the complexity of the visualization application. The operating efficiency is influenced by various factors. For example, a poor CPU performance or a low memory capacity have a negative influence on the response and display refresh time.

The following factors significantly influence the operating efficiency of an HMI. Please take these factors into consideration when selecting the HMI performance class.

Software	Recommendation			Max. HMI incl. RT	Max. PC plus RT
	Basic	Standard	High-end		
<b>Resolution of the display</b>					
Standard format (4:3)	With VGA (640 x 480 pixels)	With SVGA (800 x 600 pixels)	With XGA (1024 x 768 pixels)	Unlimited	Unlimited
Widescreen format (16:9)	With WVGA (800 x 480 pixels)	With WSVGA (1024 x 600 pixels)	With WXGA (1366 x 768 pixels)	Unlimited	Unlimited
<b>Memory required for visualization</b>					
Maximum number of pages	16	64	256	2048	8192
Maximum number of graphic elements	32	128	512	1024	8192
Maximum number of objects per page	–	32	64	64	256
Maximum number of animated objects per page	1 per page	5 per page	5 per page	Unlimited	Unlimited
<b>Variables</b>					
Maximum number of variables (tags)	256	1024	2048	4096	128000
Polling rate	1000 ms	500 ms	250 ms	Unlimited	Unlimited
<b>System coupling and communication</b>					
Maximum number of controllers	1	5	10	Unlimited	Unlimited
Max. number of parallel-used drivers	1	1 plus OPC	2 plus OPC	2 plus OPC	2 plus OPC
Max. number of controllers for each driver	1	2	5	128	128
<b>VBA scripts and IL logic (instruction list)</b>					
Maximum number of scripts	4	8	16	64	4096
Can be executed simultaneously	1	2	4	4	128
<b>Number and frequency of logs (data logging)</b>					
Maximum number of pins	4	8	16	16	64
Maximum number of data loggers	0	16	32	32	512
Scanning time	1000 ms	1000 ms	1000 ms	1000 ms	100 ms
Retention period	Dependent on memory space			365 days	9999 days
<b>Alarm management</b>					
Maximum number of alarms	128	512	1024	4096	32000
<b>User management</b>					
Maximum number of users	16	512	1024	1024	8192
Maximum number of user groups	4	16	64	64	512
<b>Report generation and printing</b>					
Textual reporting	–	Yes	Yes	Yes	Yes
Graphical reporting	–	–	Yes	Yes	Yes
<b>Events</b>					
Maximum number of event objects	16	64	128	128	512
<b>Recipe management</b>					
Maximum number of recipes per project	4	8	16	16	512
Maximum number of columns per recipe	8	32	128 (90 with IMDB)	128 (90 with IMDB)	1024 (127 with IMDB)
<b>Language selection</b>					
Maximum number of languages	4	16	32	32	128
<b>Access via the web browser</b>					
Max. simultaneous instances of access	–	1	2	2	64

### Step 3: Select the right device

Based on their features (CPU capacity, display resolution, and memory capacity) as well as their suitability for different applications, the individual device families can be divided into three classes: basic,

standard, and high-end applications. Select the right operator panel according to your requirements.

	Basic	Standard	High-end
Visu+		HMI for Visu+	Panel PC with appropriate runtime
HTML5	HMI for HTML5		Panel PC with standard browser
SpiderControl™		HMI for microbrowser	Panel PC with standard browser
WebVisit		HMI for WebVisit	
PC Worx	TD 1030T		

Product range			HMI for PC Worx	HMI for WebVisit	HMI for microbrowser	HMI for Visu+

## HMI for basic applications

### Touch panels with polyester touch technology

Web panels are inexpensive operator panels for basic operation and monitoring tasks.

Your advantages:

- Tailor-made for 100 class and 1000 class small-scale modular controllers
- Fast startup, thanks to Plug and Play
- TD1030T: alphanumeric four-color display
- Web panel: full graphic color display for clear presentation

## HMI's for standard applications

### Web panels with open browser for HTML5 applications

These touch panels are operator panels with a WebKit-based browser as the user software. This means that all web-based visualizations that support the current HTML5 web standard can be displayed.

Your advantages:

- Used exclusively for operation, the browser is the only interactive interface
- Flexible, thanks to open web standard and free choice of web server and visualization software
- Independent visualization with self-programmed JavaScript applications

## HMI for standard applications

### Touch panels with polyester touch technology

Powerful touch panels for visualizing demanding applications. With the integrated Visu+ software, you can design complex operating and monitoring interfaces and benefit from flexible connection to a wide range of third-party

systems. Your advantages:

- High-performance and versatile, thanks to a new generation of processors and integrated Visu+ visualization software

#### General technical data

TFT / LED (white)

1 GB Flash, 512 SDRAM (optional 1 MB SRAM)

1 x Ethernet 10/100 Mbps, 2 x USB Host 2.0, 1 x SD card slot

1x RS-232, 1x RS422/RS-485 (electrically isolated)

2 x CAN (electrically isolated)

MS Windows® Embedded Compact 7

For operation and storage: 20% to 85%, non-condensing

Portrait/landscape

Front installation

24 V DC ±20 %

## HMI for standard applications

### Touch panels with PCAP touch technology

The HMIs for the visualization software Visu+ enable optimal mapping of your systems and processes. The devices have a new design and projected capacitive (PCAP) touchscreen displays with multi-touch function. Thanks to a robust surface and a diverse range of display sizes, you can plan your systems with even more flexibility. Your advantages:

- Robust and sturdy, thanks to glass front suitable for industrial use

- Integrated Visu+ visualization software
- Flexible connection by means of various drivers, including third-party systems
- Fast response and display refresh time, thanks to powerful processor
- Mobile system access optionally available with the Visu+ mobile app

## Touch technologies

Technology	Analog-resistive touch technology		Capacitive touch technology	
Design	Polyester touch	Glass-film-glass	Surface-capacitive	Projective-capacitive
Abbreviation	AR touch	GFG	S-CAP	P-CAP
Method of operation	Upon touching the surface, two conductive ITO layers meet, causing a voltage drop (voltage divider).	Polyester film laminated in between two sheets of glass. Same functional principle, but with robust and scratch-proof surface.	Touching causes changes in an electric field.	A sensor grid is used with P-CAP. Changes in the electric field are evaluated individually in each part of the grid.
Operating mode • Finger • Glove • Stylus operation	Yes Yes Yes	Yes Yes Yes	Yes No No	Yes Yes (with restrictions) No
Surface material	Polyester	Glass	Glass	Glass
Touch operation mode	Single-point operation	Single-point operation	Single-point operation	Multi-point operation

Memory	2401626	SD FLASH 4 GB	4 GB SD card
Memory	2402809	USB FLASH DRIVE	8 GB USB stick
Touch pen	2701379	TOUCH PEN	Operating stylus for devices based on polyester touch technology

## HMI services

Type	Order number	Designation	Description
Development	2400325	HMI-IPC CUSTOMIZATION	Customer-specific delivery of the hardware and software (system as OEM product)
Development	9070583	HMI ENGINEERING SERVICE	Customer-specific development of hardware and software
Development	9070583	HMI ENGINEERING SERVICE	Customer-specific driver development
Configuration	( )	On request	Customer-specific project planning of HMI applications
Interface	( )	On request	Dual CAN interface for connection to the development environment
Software	( )	On request	TS.net Support Package including hardware access library
Training	9074026	TRAINING	Standard software training (location: Filderstadt, Germany)
Training	9074029	ON-SITE TRAINING	Standard software training (location: according to customer request)
Maintenance	9070515	HMI MAINTENANCE SERVICE	Service contracts for software
Webinar	9074028	ONLINE TRAINING	Online seminar with custom content
Workshop	( )	On request	Workshop with custom content (location: Filderstadt, Germany)
Workshop	( )	On request	Workshop with custom content (location: according to customer request)
Approvals	9070516	HMI CERTIFICATION SERVICE	Support for customer-specific certifications and approvals
Adapter	2401505	DEVELOPMENTKIT USB-2CAN-SERIAL	Interface environment that supports development, (RS-232, RS-485 and 2x CAN) for connection to the development PC

( ) = project-specific possibility

# Industrial PCs selection guide

Whether as a simple control station or a central processing unit in the server cabinet, industrial PCs from Phoenix Contact are available in numerous designs and with various ranges of functions. High reliability and durability is something they all have in common. The application, performance requirements, and functionality determine which industrial PC is the right choice for you.

**1**

## Select the application

- For the control cabinet
- For front installation
- For 19" racks
- For use in the field

**2**

## Assess the performance required

- Low
- Medium
- High

**3**

## Select the right industrial PC

- EL xxx
- BL xxx
- VL xxx
- DL xxx

Product range	EL xxx	BL xxx	VL xxx	DL xxx

## HMI's for applications in harsh ambient conditions

### Robust touch panels with GFG touch technology and protection class IP67

The outdoor touch panels with new processor generation and Glass-Film-Glass touchscreens offer power and robustness for demanding applications. Operate and monitor your system in any environment, thanks to the C1D2 certification for extreme application conditions.

Web panels are inexpensive operator panels for basic operation and monitoring tasks. Your advantages:

- Display can be read in direct sunlight
- Resistant to UV and IR radiation

## Touch technologies

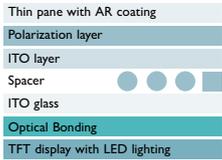

### Polyester touchscreen

A resistive touchscreen consists of two polyester plates that lie on top of each other, which are coated with the semiconductor indium tin oxide (ITO). Spacers are used to create a gap between the plates that is filled with air. The contact is triggered with a finger or any other object.

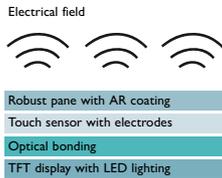

### Glass-film-glass touchscreen (GFG)

The GFG touch combines the proven, pressure-based analog resistive touch technology with a high-quality glass design. As a result, it is best suited for harsh ambient conditions. The device can be operated with fingers, gloves, stylus pens or any other object, without causing damage.

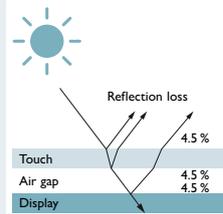

### Projective capacitive touchscreen (PCAP)

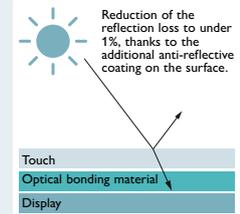

A transparent ITO layer underneath the glass cover, consisting of touch sensors, projects a uniform electrical field that extends through the glass to the user. The operator panels with PCAP touch technology support multi-touch functions and gesture control.

## Readability in sunlight

Without optical bonding

With optical bonding and AR coating

### Optical bonding

In this special adhesive procedure, optical components such as the display, touch or glass are connected to one another with a transparent adhesive over their entire surface in a highly technical procedure. The removal of the air gap minimizes the internal reflections and leads to an improvement of the optical properties.

### Anti-reflective coating (AR coating)

Anti-reflective coatings are used to reduce disruptive light reflections on glass surfaces. This ensures displays are rich in contrast and can be read easily by the viewer if there is incoming ambient light or glistening sunlight.

## HMI's for maritime applications

### Maritime touch panels with polyester touch technology

The powerful HMI's from the TPM 3000 series are designed for demanding applications onboard ships. New display sizes and a wide range of functions ensure user-friendly and reliable operation, monitoring, and alerts while at sea.

Your advantages:

- Light-absorbing front panels
- Dimmable backlight
- Certification in accordance with ABS, BV, DNV-GL, KR, LR, KR, RINA
- Certified compass safe distance in accordance with DIN EN 60945

## Device accessories (may be product-specific)

General	Order No.	Designation	Description
Adapter	2400174	DP TO DVI ADPTR	DisplayPort to DVI-i video adapter
Adapter	2400173	DP TO VGA ADPTR	DisplayPort to VGA video adapter
Data cable	2320500	IFS-USB-DATACABLE	Used for communicating between industrial PCs and Phoenix Contact devices with the 12-pos. IFS data port, such as QUINT UPS or TRIO UPS
Data cable	1404514	SI-SES-U1A/0.6	Service socket with USB (socket/plug), type A with 0.6 m cable
Energy storage	2320351	UPS-BAT/ LI-ION/24DC/120WH	Energy storage device, LI-ION technology, 24 V DC, 120 Wh, for ambient temperatures of -20°C ... +58°C, automatic detection and communication with QUINT UPS-IQ
Energy storage	2320296	UPS-BAT/VRLA/24DC/1.3AH	Energy storage device, lead AGM, VRLA technology, 24 V DC, 1.3 Ah, tool-free battery replacement, automatic detection, and communication with QUINT UPS-IQ
Energy storage	2320306	UPS-BAT/VRLA/24DC/3.4AH	Energy storage device, lead AGM, VRLA technology, 24 V DC, 3.4 Ah, tool-free battery replacement, automatic detection, and communication with QUINT UPS-IQ
Extender	2404770	VL KVM EXTENDER	Extender for the transmission of keyboard, video and mouse signals over distances of up to 90 m from the IPC to the monitor
Assembly adapter	2404776	VL KVM EXTENDER BOOKSHELF MNT	Bookshelf-style mounting kit for use with the VL KVM EXTENDER (2404770)
Assembly adapter	2320089	UTA 107/30	Universal DIN rail adapter for BL BPC 2000 and BL2 BPC
Buffer module	2402941	PC-PWR-FLTR-2	The PC-PWR-FLTR-2 buffers incoming power until operating voltage is reached. For use with 24 V DC power sources with rise times above 100 ms.
Software	2701453	VL PORTICO SERVER 1 CLIENT	Remote network portal software for remote controlling one PC to another
Software	2701456	VL PORTICO SERVER 16 CLIENT	Remote network portal software for remote controlling up to 16 client PCs from one single server
Software	2701455	VL PORTICO SERVER 4 CLIENT	Remote network portal software for remote controlling up to four client PCs from one single server
Software package	2402618	UPGRADE WIN 7 PRO SP1 X64-DE	Kit for upgrading a Windows® XP operating system to Windows® 7 Professional SP1 (64-bit German-language operating system). Kit includes a USB drive and Microsoft® Certificate of Authority (CoA) sticker.
Software package	2400574	UPGRADE WIN 7 PRO SP1 X64-EN	Kit for upgrading a Windows® XP operating system to Windows® 7 Professional SP1 (64-bit English-language operating system). Kit includes a USB drive and Microsoft® Certificate of Authority (CoA) sticker.
Software package	2402617	WIN 7 PRO SP1 X86-DE UPGRADE	Kit for upgrading a Windows® XP operating system to Windows® 7 Professional SP1 (32-bit German-language operating system). Kit includes a USB drive and Microsoft® Certificate of Authority (CoA) sticker.
Software package	2400573	UPGRADE WIN 7 PRO SP1 X86-EN	Kit for upgrading a Windows® XP operating system to Windows® 7 Professional SP1 (32-bit English-language operating system). Kit includes a USB drive and Microsoft® Certificate of Authority (CoA) sticker.
Software package	2402620	UPGRADE WIN 7 ULT SP1 X64	Kit for upgrading a Windows® XP operating system to Windows® 7 Ultimate SP1 (64-bit multi-language operating system). Kit includes a USB drive and Microsoft® Certificate of Authority (CoA) sticker.

Software package	2402619	UPGRADE WIN 7 ULT SP1 X86	Kit for upgrading a Windows® XP operating system to Windows® 7 Ultimate SP1 (64-bit multi-language operating system). Kit includes a USB drive and Microsoft® Certificate of Authority (CoA) sticker.
Software package	2400303	WES2009/WES7 RECOVERY USB	Operating system recovery kit for Windows® Embedded 2009 and Windows® Embedded 7 operating systems. The kit includes a USB drive.
Memory	2701668	16 GB CF	CompactFlash® card, pluggable, 16 GB
Memory	2701669	32 GB CF	CompactFlash® card, pluggable, 32 GB
Memory	2400170	IPC 16 GB CFAST KIT	CFast® card with 16 GB
Memory	2402978	IPC 32 GB CFAST KIT	CFast® card with 32 GB
Memory	2400168	IPC 4 GB CFAST KIT	CFast® card with 4 GB
Memory	2400169	IPC 8 GB CFAST KIT	CFast® card with 8 GB
Memory	2913155	VL 1 GB CF	CompactFlash® card, pluggable, 1 GB
Memory	2913156	VL 2 GB CF	CompactFlash® card, pluggable, 2GB
Memory	2913157	VL 4 GB CF	CompactFlash® card, pluggable, 4 GB
Memory	2913158	VL 8 GB CF	CompactFlash® card, pluggable, 8 GB
Power supply	2866750	QUINT-PS/1AC/24DC/ 5	Primary-switched QUINT POWER supply for DIN rail mounting with SFB (selective fuse breaking) Technology, input: 1-phase, output: 24 V DC / 5 A
Power supply, uninterruptible	2320212	QUINT-UPS/24DC/24DC/5	Uninterruptible power supply with IQ Technology for DIN rail mounting, input: 24 V DC, output: 24 V DC / 5 A, including mounted universal DIN rail adapter UTA 107/30
Touch pen	2701379	TOUCH PEN	Touch pen for HMIs, silver-coated, delivery includes self-adhesive pen holder
EL xxx	Order No.	Designation	Description
PCB connector	1751312	MC 1.5/ 3-STF-3.5 BD:1-3	Plug for Embeddedline industrial PCs, nominal current: 8 A, number of positions: 3, pitch: 3.5 mm, connection method: screw connection with tension sleeve, color: green, contact surface: tin
Adapter	2401505	DEVELOPMENTKIT USB-2CAN-SERIAL	Interface environment that supports development, (RS-232, RS-485 and 2x CAN) for connection to the development PC
BL xxx / BL2 xxx	Order No.	Designation	Description
Hard drive mounting frame	2400026	BL 3000/7000 SATA TRAY	2.5" SATA tray kit for Basicline 3000 and 7000 industrial PCs
Hard drive mounting frame	2403331	BL BPC 2000 2.5" SATA BAY	2.5"-HDD/SSD mounting frame, compatible with Basicline BPC 2000
Hard drive mounting frame	2403838	IPC 3.5/2.5 TRAY	Tray for BL RACKMOUNT... industrial PCs
PCB connector	1777992	MSTB 2.5/ 3-STF-5.08	Plug for Designline, Basicline and Valueline industrial PCs, nominal current: 12 A, rated voltage (III/2): 320 V, number of positions: 3, pitch: 5.08 mm, connection method: screw connection with tension sleeve, color: green, contact surface: tin
PCB connector	1786844	MSTB 2.5/ 3-STF	Plug for industrial monitors (FPM), nominal current: 12 A, rated voltage (III/2): 320 V, number of positions: 3, pitch: 5 mm, connection method: screw connection with tension sleeve, color: green, contact surface: tin

## Device accessories (may be product-specific)

BL xxx / BL2 xxx	Order No.	Designation	Description
Memory	<a href="#">2400022</a>	BL 3000/7000 16 GB SSD KIT	16 GB, 2.5" SATA SSD kit with tray for Basicline 3000 and 7000 industrial PCs
Memory	<a href="#">2400023</a>	BL 3000/7000 32 GB SSD KIT	32 GB, 2.5" SATA SSD kit with tray for Basicline 3000 and 7000 industrial PCs
Memory	<a href="#">2400021</a>	BL 3000/7000 320 GB HDD KIT	320 GB, 2.5" SATA HDD kit with tray for Basicline 3000 and 7000 industrial PCs
Memory	<a href="#">2403280</a>	BL BPC 2000 16 GB SSD KIT	16 GB, 2.5" SATA SSD kit with tray for Basicline BPC 2000

Memory	<a href="#">2404868</a>	120 GB M.2 MLC SSD kit	1200 GB M.2 mass storage for industrial PPC and BPC products
Memory	<a href="#">2404869</a>	240 GB M.2 MLC SSD kit	240 GB M.2 mass storage for industrial PPC and BPC products
Memory	<a href="#">2404870</a>	480 GB M.2 MLC SSD kit	480 GB M.2 mass storage for industrial PPC and BPC products

## Device accessories (may be product-specific)

VL xxx / VL2 xxx	Order No.	Designation	Description
Cover	2400277	SILICONE USB COVER KIT	Replacement USB end cover for VL PPC xxx
Adapter	2401505	DEVELOPMENTKIT USB-2CAN-SERIAL	Interface environment that supports development, (RS-232, RS-485 and 2x CAN) for connection to the development PC
Data cable	2404774	VL 2.0M DP CABLE	DisplayPort (DP) cable (2m) for use associated with with industrial computers
Hard drive mounting frame	2913185	HDD TRAY KIT	Hard drive mounting frame for VL xxx
PCB connector	1777992	MSTB 2.5/ 3-STF-5.08	Plug for Designline, Basicline and Valueline industrial PCs, nominal current: 12 A, rated voltage (III/2): 320 V, number of positions: 3, pitch: 5.08 mm, connection method: screw connection with tension sleeve, color: green, contact surface: tin
PCB connector	1786844	MSTB 2.5/ 3-STF	Plug for industrial monitors (FPM), nominal current: 12 A, rated voltage (III/2): 320 V, number of positions: 3, pitch: 5 mm, connection method: screw connection with tension sleeve, color: green, contact surface: tin
Mounting kit	2913160	VL BOOKSHELF MOUNTING KIT	Mounting kit, VL BPC, without PCI expansion slots, for bookshelf mounting
Mounting kit	2913164	VL BOOKSHELF MOUNTING KIT/EXPANSION	Mounting kit, VL BPC, with PCI expansion slots for bookshelf mounting
Mounting kit	2913159	VL PANEL MOUNTING KIT	Mounting kit, Valueline industrial PC, for installation on a front panel
Mounting kit	2701177	VL PANEL+ MOUNTING KIT	Mounting kit, Valueline industrial PC, for use with 15 and 17-inch displays to accommodate thicker panels, including the required hardware
Mounting kit	2913161	VL WALL MOUNTING KIT	Mounting kit, Valueline industrial PC, for wall mounting
Mounting panel	2701716	VL PPC12 19" RACKMOUNT PLATE	Mounting panel for the installation of Basicline and Valueline 12" PPC products and 12" FPM products through standard PPC mounting in a 19" rack
Mounting panel	2701715	VL PPC15 19" RACKMOUNT PLATE	Mounting panel for the installation of Basicline and Valueline 15" PPC products and 15" FPM products through standard PPC mounting in a 19" rack
Mounting panel	2701714	VL PPC17 19" RACKMOUNT PLATE	Mounting panel for the installation of Basicline and Valueline 17" PPC products and 17" FPM products through standard PPC mounting in a 19" rack
Protective foil	2913165	VL 15" DISPLAY PROTECTIVE FOIL	Protective foils for 15" touchscreen (10-pack)
Memory	2913199	VL 16 GB SSD (SLC) KIT	16 GB, 2.5" SATA solid-state drive (SLC) kit for Valueline industrial PC, with mounting frame
Memory	2913200	VL 32 GB SSD (SLC) KIT	32 GB, 2.5" SATA solid-state drive (SLC) kit for Valueline industrial PC, with mounting frame
Memory	2701111	VL 320 GB HDD KIT	320 GB, 2.5" SATA HDD kit (SLC) for Valueline industrial PC, with mounting frame
Memory	2400337	VL2 16 GB SLC SSD SATA KIT	16 GB, 2.5" SATA SSD kit with tray for VL2... industrial PPC and BPC products
Memory	2400338	VL2 32 GB SLC SSD SATA KIT	32 GB, 2.5" SATA SSD kit with tray for VL2... industrial PPC and BPC products
Memory	2400341	VL2 320 GB HDD SATA KIT	320 GB, 2.5" SATA SSD kit with tray for VL2... industrial PPC and BPC products
Memory	2400335	VL2 4 GB SLC SSD SATA KIT	4 GB, 2.5" SATA SSD kit with tray for VL2... industrial PPC and BPC products
Memory	2400336	VL2 8 GB SLC SSD SATA KIT	8 GB, 2.5" SATA SSD kit with tray for VL2... industrial PPC and BPC products
Memory	2403833	VL2 240 GB SSD kit	240 GB, 2.5" SATA SSD kit, with tray, for VL2... industrial PPC and BPC products
Memory	2403834	VL2 480 GB SSD kit	480 GB, 2.5" SATA SSD kit, with tray, for VL2... industrial PPC and BPC products

## Device accessories (may be product-specific)

DL xxx	Order No.	Designation	Description
Hard drive mounting frame	2400033	DL HDD/SSD TRAY KIT	2.5" SATA kit for Designline industrial PC
Bracket	2400014	DL ADAPTER PLATE VESA75-100	Mounting panel for Designline for conversion from VESA 75 to VESA 100. VESA 100 with keyholes for easy mounting. Color: RAL 7035 (light gray)
Bracket	2400013	DL WALL MOUNT	Wall bracket for Designline. Hole size: VESA 100 with keyholes for easy mounting. Color: RAL 7035 (light gray) Length: 218 mm
Bracket	1048820	DL PPC 21.5 ARM ADAPTER	Bracket incl. cable cover
PCB connector	1777992	MSTB 2.5/ 3-STF-5.08	Plug for Designline, Basicline and Valueline industrial PCs, nominal current: 12 A, rated voltage (III/2): 320 V, number of positions: 3, pitch: 5.08 mm, connection method: screw connection with tension sleeve, color: green, contact surface: tin
Memory	2400029	DL 16 GB SSD KIT	16 GB, 2.5" SATA SSD kit with tray for Designline industrial PC
Memory	2400030	DL 32 GB SSD KIT	32 GB, 2.5" SATA SSD kit with tray for Designline industrial PC
Memory	2400028	DL 320 GB HDD KIT	320 GB, 2.5" SATA HDD kit with tray for Designline industrial PC
Tablet PCs	Order No.	Designation	Description
Energy storage	2403082	ITC 8113 RECHARGEABLE BATTERY	Battery for ITC 8113 xxx with 4 cells and charge level indicator
Bracket	2403313	ITC 8113 PORTREPLICATOR	Rotatable/tiltable port replicator (without lock) for ITC 8113 xxx with 1x Ethernet (10/100/1000 Mbps), RJ45 and 4x USB 2.0
Charger	2403081	ITC 8113 CHARGING STATION	Charging station for charging two batteries simultaneously. LEDs indicate the charging state of each charging unit; insertion/removal of a battery is indicated by an acoustic signal
Power supply	2403083	ITC 8113 POWER SUPPLY	Power supply unit for ITC 8113 xxx, charging station, and port replicator
Handle	2403314	ITC 8113 HANDLE	Handle for the ITC 8113, incl. 2 screws
Strap	2404751	ITC 8113 CARRYING STRAP	3 point belt for tablet PC ITC 8113
Transport box	2404752	ITC 8113 TRANSPORT CASE	Transport case for ITC 8113 tablet PC

## Excellent products

### Controllers

Phoenix Contact offers controllers in all performance classes for efficient automation of your system.

### Industrial Ethernet

With the products from Phoenix Contact, you can make the most of all the options offered by Ethernet network to ensure consistency, speed and extreme flexibility.

### I/O systems

Collect and transmit signals and data quickly and reliably to your systems.

### Wireless data communication

Modern wireless technology offers efficient and consistent communication for all industrial applications.

### Software

Benefit from innovative software solutions – optimally tailored to hardware from Phoenix Contact.

### Power supplies and UPS

Maximum availability for your systems – our solutions for your power supply are technologically groundbreaking.

### Fieldbus components and systems

Save time during planning and installation. With this versatile product range you can create a fieldbus network for every application.

### Surge protection and interference suppression filters

Do you want system operation to be unaffected by interference? Then surge protection from Phoenix Contact will help you fulfill an essential requirement.

### Functional safety

Innovative safety solutions for all requirements. Play it safe, make the right choice.

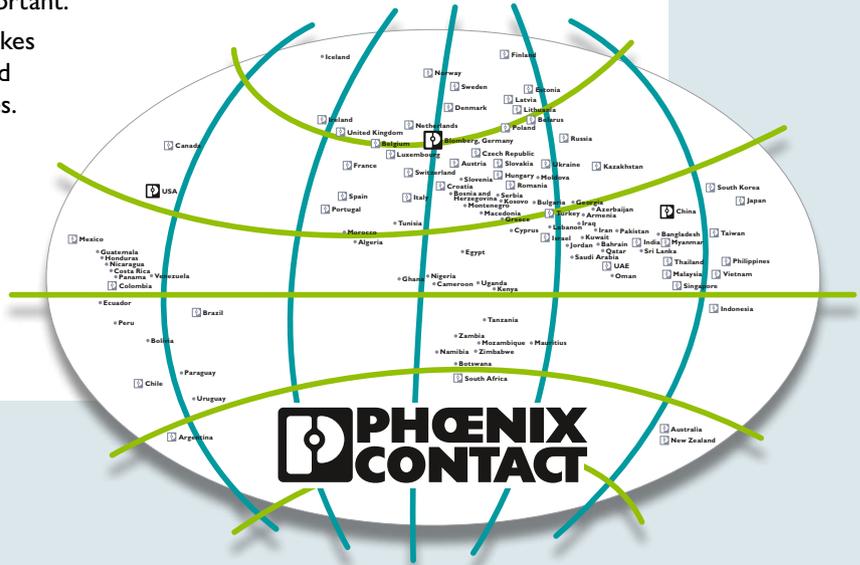

### Lighting and signaling

Whether you are dealing with the system state, product quality or hard-to-inspect dark areas — with more intelligent lighting and signaling technology, you always have everything within view.

## In dialog with customers and partners worldwide

Phoenix Contact is a globally present, Germany-based market leader. Our group is synonym for future-oriented components, systems, and solutions in the fields of electrical engineering, electronics, and automation. A global network across more than 100 countries, and 16,500 employees ensure a close proximity to our customers, which we believe is particularly important.

The wide variety of our innovative products makes it easy for our customers to find future-oriented solutions for different applications and industries. We especially focus on the fields of energy, infrastructure, process and factory automation.
